# Supply Chain Management

## OUR SERVICES

United Seair Pvt Ltd. offers one of the most advanced supply chain management solution for controlling complex supply chains in an organized process. Through this service, we try to create an environment for effective management planning, controlled lead times and streamlined logistics operations. Overall, this process reduces inventory costs for our clients and eliminates unnecessary costs such as hidden-cost and rent.

Due to our global footprint, wide array of services UNITED is uniquely positioned to provide end-to-end supply chain solutions.

Next to single modal services we are able to combine modalities, link it to warehousing or cross docking services and ultimately delivers your orders to your customers by road or express.

We understand that your business is unique, and thus, your supply chain is unique too. UNITED strives to be your supply chain partner by garnering real-life insights into your needs. We focus on your challenges and bring together elements like people, technology and real estate to make them work for you as a solution.

We have industry knowledge of various sectors and have delivered successful solutions for customers of all sizes. However, for each customer we do a supply chain analysis and develop a plan best suited to his needs. We carefully look at your big picture to positively impact your bottom line with our solution.

# Warehousing Distribution & Free Trade Warehousing Zones (FTWZs)

## OUR SERVICES

### UNITED Is A Unit Holder With - Free Trade Warehousing Zones (FTWZs)

Free trading warehouse zones are a category of special economic zones set up to improve logistics infrastructure and facilitate and promote cross-border and international trade. FTWZs serve as mega trading hubs with integrated logistics infrastructure such as special storage areas, world-class material handling equipment, container yards, inland container depot, customs office and commercial complex.

Warehousing is an integrated part of UNITED- including inbound checks, goods receipt and put-away, (bonded) storage, pick & pack and shipping. We provide warehousing as a component of the total supply chain.

Besides storage capacity the warehouses also act as cross dock and/or merge in transit center in order to speed up ultimate delivery to your customer in a reliable and cost effective manner.

The Global market is a complex market due to the different languages, cultures rules and regulations. In order to supply your customers with tailored goods we provide value added services like assembly of high-tech equipment, light manufacturing, configuration, kiting, packaging and customer support.
